Issue no.01

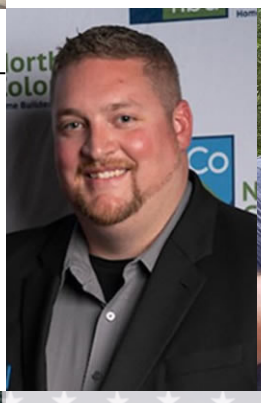
54 MORE OFF THE FLOOR!

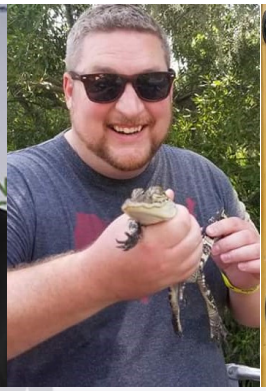
In our second annual Build A Bed event, we cut, sanded, and constructed 54 beds for children in Northern Colorado who don't have one. That means that we got 54 more kids off the floor, couch or car seat and sleeping on a real mattress. What a success! Thanks to Kamtz Cabinets, Bloedorn Lumber, Capital Lumber, Alpine Lumber, ABS, Weyerhaeuser, Hartford Homes, Paragon Granite, Baessler Homes, Leila Russell, the many, many agents at Remax Alliance, and all of the wonderful volunteers who showed up, got dirty and dusty and got us to our 2022 goal of 54 beds! And thank you Blockys, Santiagos, and Dunkin Donuts for feeding us so well!!

We so appreciate you all and all of your efforts toward our success!!

BOARD OF DIRECTORS HIGHLIGHT: ZAC KNUPPEL

Zac has been a part of the Foundation board since it's re-creation in October of 2020. While his day job is Outside Sales Account Manager for Specialty Appliance, Zac has been instrumental in managing the Foundation's Building the Future Scholarship program, through which the Foundation just awarded its second and third scholarships to students looking toward a future in construction or related fields. Zac spends his personal time touring baseball fields across the United States and when he cheered for the Braves in Atlanta on September 16th, he officially hit his goal of seeing a game in every baseball stadium nationwide. Home run, Zac! And thanks for being "onboard"!





OUR NEXT BIG THING: BUILDING FOR VETERANS!

Our next big thing is our first ever veterans' project, which will change each year depending on community need. This year, we'll be building tiny houses with the Veterans Community Project to benefit Colorado veterans who don't have a place to call home. If you'd like to donate to help purchase supplies and/or furnishings for one of these homes, donate here: DONATE
